Social Media Analysis by CARMA

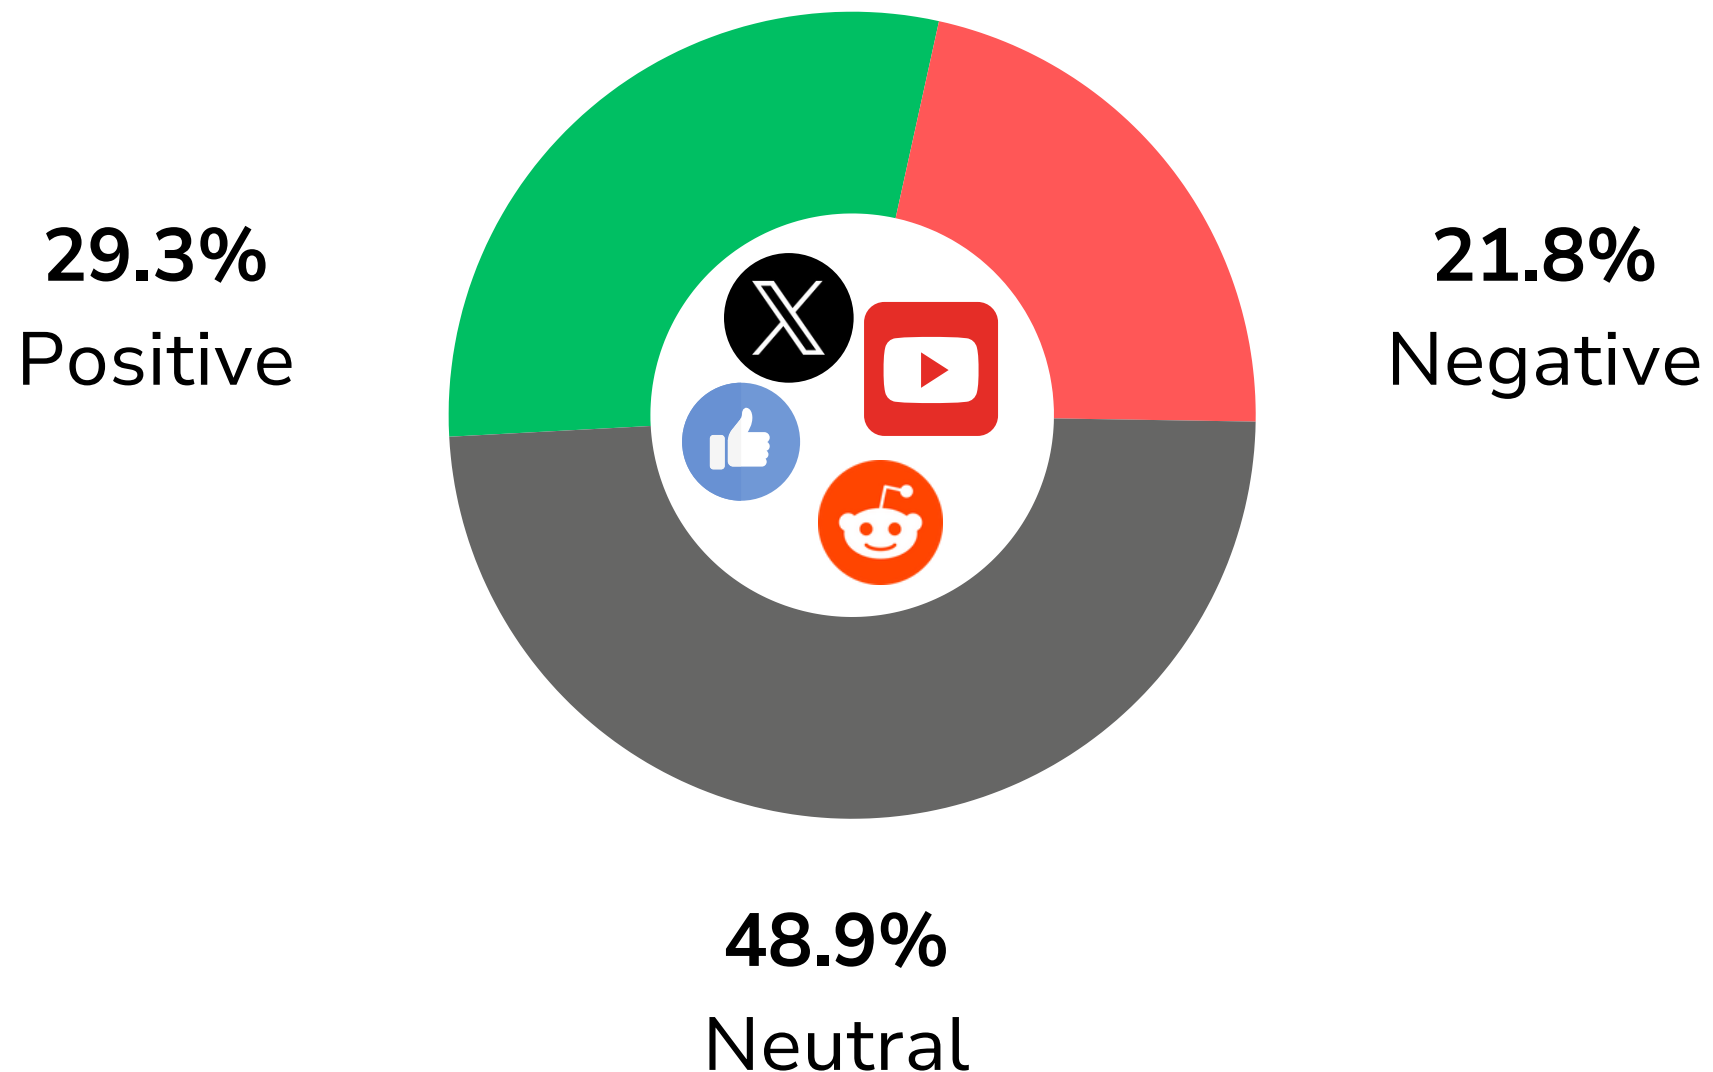

OpenAI's latest competitor, DeepSeek, released its R1 model along with updates in the past few days.

This China based AI was less capital-intensive to build with some netizens believing it surpasses ChatGPT in capabilities and efficiency.

## WHAT IS THE SOCIAL MEDIA SENTIMENT?

While DeepSeek soared on the app store, some netizens are concerned about its potential impact on the global tech landscape. For example its threat to US technological dominance, and the collection of personal information in China.
